Accenture, London, United Kingdom

- Involved in maintaining infrastructure including Kubernetes on Azure Cloud. Maintaining repositories and release of product using Azure DevOps.
- Setting up and Integrating Airflow on Azure to schedule containers using Python.
- Setting up alerting and monitoring on Azure.
- Involved in creating pipelines for CI/CD.

DevOps Engineer | (July 2017 – July 2019)

SAP Labs, Bangalore, India

- Onboarding customers on SAP Leonardo IoT Platform on Cloud foundry.
- Minimizing the tasks using REST API using postman.
- Configured Dynatrace for monitoring IoT Applications

EDUCATION

Masters in Information
Technology – 2:1 (Dec 2012)
The University of Nottingham,
United Kingdom

Bachelor of Engineering in
Information Science and
Engineering – First Class (2012)
B.N.M. Institute of
Technology, Bangalore,
India

Diploma in Information
Science and Technology –
First Class (2006)
N.V. Polytechnic, Gulbarga,
India

and infrastructure including HANA database.

- Migrated the Jenkins system that was launching from docker on to Kubernetes.
- Integrated Jenkins as admin for CI/CD.

Release Engineer | (Nov 2016 – July 2017) Oracle, Bangalore, India

- Release development for Oracle Fusion HCM cloud.
- Involved in applying weekly and monthly patch bundles in the pods.
- Used Bugzilla for tracking bugs.

Software Engineer | (June 2014 – Nov 2016) Cisco, Bangalore, India

Vendors: Randstad India Limited and Volen softwares

- Develop and maintain CI/CD system that works on cloud and virtualization.
- Using Openstack as the cloud.
- Develop and configure a log file server using ELK stack and monitoring system using Shinken.
- Automating apps deployment and infrastructure deployment using ansible.
- Using Docker for full stack building.
- Used Rally for working in Agile, Jenkins for CI/CD, Mantis for tracking bugs.
